## From On The Lake Editor

**OTL Editor**  
Chris Markiewicz  
9370-2045  
artmill@dodo.com.au

The APYC crossword number 18 seems to be more challenging than the previous ones, or is it? That was the idea, anyway. Thanks to Macquarie Dictionary the new sailing and water related words keep on coming. On page 8 you will find an interesting article in our series of club member's profile. This time it features Dougal Watt. The article includes an impressive list of his sailing achievements, as long as Impulse's Mast. Thank you, Dougal, for sharing your enthusiasm for sailing with us.

Enjoy your reading!  
Chris Markiewicz

## **Commodore's Comment** by Jonathan Pulham

At the time of the last issue of On the Lake the club was busily preparing for the Vic. School Team Sailing Championship. Thanks to the support of the many members who gave up their time during the working week the event was successfully run, and well received by all those participating. Thanks also to the SEDA students who assisted during the regatta. There had certainly not been so much activity in front of the club since the first years of the Grand Prix Regatta. The winners were Haileybury College, from Geelong Grammar and Fribank. These schools will now compete in the National Championship in Perth in July.

Speaking of the Grand Prix, in the week prior to this year's event, the club, along with the sailing club and the boatshed, were asked if we could provide some boats on the lake. After a hurried round of e-mails, we were able to get enough enthusiastic members down to take out about 6 dinghies and also Status and Acrospire. International friends have commented on seeing the boats on the lake during the GP, and that they looked fantastic. If you missed out on coming along, there is every chance that we may be asked to be on the lake again next year, though hopefully we will have a little more notice!

If you've been sailing recently, you will have noticed the new strip of marine carpet on the launch ramp in front of the club. This was made by Jim & Leanne French, and the materials paid for by the club with the money made from the Schools Regatta. The carpet is laid out by us every Saturday morning, and needs to be taken out at the end of the day to prevent the build-up of algae. It is now much safer to walk upon when launching and retrieving boats. I spoke recently with Parks Vic. regarding the permanent repair of the ramp, and it seems likely that they will get the funding for it upon the dawning of the new financial year in July. The design and builder have already been approved.

It is rather ironic that after a year of having to deal with the dangerously slippery ramp, waiting for someone to injure themselves on it, the member taken to hospital by ambulance with a broken hip a fortnight ago did not slip on the ramp, but fell on the concrete path. When I last spoke to Ian he was recovering well, and was up and about with a new hip and hoping to be down at the club soon, though it may be a little longer before he can sail. The other hospitalised member of that same Saturday, Shae, also recovered well, though her black eye has only just faded.

Coming up in July the club is hosting two major events. The first is Wintersail, the three day junior coaching regatta open to all Optimist, Minnow, Sabot, Cadet and Laser 4.7 sailors. As usual the event is on the last three days of the term 2 school holidays, Friday 15<sup>th</sup> to Sunday 17<sup>th</sup> July. The ideal environment for kids to meet other sailors of their age, learn a lot and have some fun along the way. We will need helpers to run this event, so if you are available and willing, please let me know. On Saturday 23<sup>rd</sup> July is the Melbourne Midwinters Open Teams Regatta, which you may remember we hosted last year. There are likely to be enough helpers outside the club to run this, but if we could have some helpers from within the club to assist with this event it would make things easier. It's also important to have members within the club familiar with the organisation of such events, so that knowledge is retained.

The 23<sup>rd</sup> July is also the day Yachting Vic. have scheduled their annual club conference. Topics covered will likely include training, attraction and retention of members, club facilities and more, often extremely interesting topics directly related to what clubs are doing or could be doing. I have attended the conference the last couple of years, and would certainly recommend this day to any others interested in the running of our club. Finally, a reminder that the club sends out an e-mail update fairly regularly to members on our e-mailing list. If you would like to receive these updates (1 to 2 a month), please give your e-mail address to the membership secretary, and do please remember to let us know if your address changes. Hope to see you all down at the lake soon.

**Chris, Jonathan and Robert sailing Acrospire during 2011 Grand Prix**

**Do you get APYC weekly E-News? If not, send your email address to: [info@apyc.org.au](mailto:info@apyc.org.au) and we'll add you to the list!**

**Chris, Jonathan and Robert sailing Acrospire during 2011 Grand Prix**

**Club Job Board: All members are welcome to add to this board any maintenance issues or suggestions to do with the club. The board is in the downstairs office to the left of the entry.**

## Volunteers Wanted

In a few months time all our members will be asked to attend our annual general meeting. This is the meeting where your committee reports to all our members on what has been happening at the club over the past twelve months. There is one part of the agenda that always draws the crowd to silence and attendees have a sudden urge to look at the floor. How is that? It is when the current committee is dismissed and the call for new committee members is announced. So what positions are up for contention?

**Commodore.** The top job, our leader, duties are mostly administration and chairing our committing meetings, eleven per year.

**Vice Commodore.** Looks after sailing operations and is our back up Commodore.

**Rear Commodore.** Sometimes called immediate past Commodore and as the name suggests has been the Commodore and normally knows where things are hidden around the club.

**Club Captain.** Could be called a boson; looks after general maintenance of the club and its assets.

**Secretary.** Chief minute taker, mail sorter and record keeper.

After this we have seven committee members who assist the executive committee. Some of these roles are race secretary, membership secretary, hall manager, training coordinator, social secretary, OTL editor. So with all these roles there should be one that suits your skill set. If not, by volunteering for one of these roles you could learn a new skill. If you are about to use the excuse "I have not got time to be on the committee" maybe you should first ask how much time can I give my club in helping it run. As mentioned we only have eleven meetings a year and they run from 1.5 to 2 hours so that makes it less than one day out of a full year. With the joys of e-mail a lot of club issues can be solved between meeting dates. So what are you waiting for? Great things come from volunteers and it is what Australia is famous for.

There is of course another position in the club which is appointed at the first meeting of a new committee and that is Treasurer. This is where you get the job of spending all the money that the membership secretary brings in.

So now you have all decided you want in on one of these great positions you need to get nominated before the AGM. Ask myself or one of the other current committee members for a nomination form. Your current committee can also answer any questions or reservations you may have. Remember executive committee members get a Gold Card.

## **Anyone for a cold winter's sail?** by Jon Pulham

Winter officially started this week, although we have had a couple of wintry sails already this past month. Writing this in a heated room with the smells of a hot dinner in the oven, it's easy to say that it never really gets *unbearably* cold in winter, and that if you dress appropriately when sailing you'll enjoy being on the water as much as you do in summer. However when faced with the reality of actually preparing to sail, with fingers already half frozen and your breath coming out as steam, those words may seem a little hollow. Many Melbourne winter days are not terribly cold, and the sun often shines, but there are bound to be days when you would rather stay indoors. Why bother to go for a sail when it's warm inside and cold, dark and wet outside?

For some sailors, there's a competitive element. If others are mad enough to brave the weather, (and there are plenty who are), then they will go out to sail alongside them. For me, it's all about the experience – to be able to say 'I survived that', and to have shared in that experience with others. It gives me a great sense of belonging - to one big crazy sailing family! If you enter into a conversation with a sailor, you might hear about the time when a 50 knot squall sent the fleet cart-wheeling into the distance, or about the time the deck was white with hail, or the time when they capsized on the coldest day in 60 years (or was it 100?). You won't hear about the day when the wind was nice and the sun was shining, because that's not worth talking about (even though the experience was probably a lot more enjoyable). The point is, it's a badge of honour in the sailing world to have experienced something dramatic.

So the next time the weather looks a little bleak on a Saturday, think about coming down to the lake anyway, even just to have a laugh at those mad people on the water. You might just discover you'd rather be out there with them.

## Solo Class Report by Brian Jones

..It has been a quiet start to Winter with only a few Solo sailors getting down each week. The extremely light winds during autumn allowed the Solos to challenge (and beat) quite a few of the Impulses. The stronger winds made it much harder! We look forward to the Solo sailors getting out their wet-suits and enjoying the coming months. The AGM of the Victorian Solo Association will be held on Saturday 4th

June at APYC at 12:00 noon. All Solo sailors should make an effort to attend.

Finally, Mal Percy has told me: "Finally, I haven't really got into dinghy sailing, and I think it would be better if "Black Magic" remained at Albert Park rather than be moved to Rhyll, where I have my trailer

sailer. So if you are aware of anyone looking for a Solo, please let them know that mine is for sale," So if you are after a good Solo, please contact Malcolm on 9399 1376 or 0407 362 423.

Regards

Brian Jones

## Member profile ....

### Dougal Watt

**Dougal, how did your interest in sailing develop over the years, when did you start?**

Well it's simple - mum! My learning experience began in 1978 on Albert Park Lake. We had lessons at 'Jolly Roger' then mum was quick to buy our first Sabot. I used to sail this with my brother but there was a mutiny and it was all mine!

### What other boats did you sail over the years?

I've usually sailed singly handed boats and have always enjoyed racing. I've sailed many different classes from Sabot, Sabre, 420, Laser, OK dinghy, Flying Fifteen, Etchell, 14 skiff, various classes of keel boats and of course the Impulse.

As kids we joined APYC in 1978 and I am still a member. Over the years I have learnt so much from sailing at the lake and have made many friends.

### Is anyone else in your family sailing?

Not anymore, but they follow and support my sailing endeavours.

### What are the main achievements at sailing competitions?

I love the sound of a start gun! My racing has taken me far and wide and no matter where, I am happy just to be there.

All the small regattas are great practice for large regattas and are equally important.

Main achievements:

Sabre 5<sup>th</sup> - Nationals. Sabre 2<sup>nd</sup> – States

Laser 4<sup>th</sup> – Asia Pacific (India). Laser 4<sup>th</sup> – Asia Pacific (Singapore). Laser 3<sup>rd</sup> – States.

OK dinghy 3<sup>rd</sup> – States

Impulse 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup> - Nationals. Impulse 2<sup>nd</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup> – States

I've also sailed world titles and many other large regattas that have been great experiences and a lot of fun.

I had a medical problem a few years ago with the prognosis that I couldn't sail single handed boats again. My Impulse is named "Stroke of Luck" and perhaps my greatest sailing achievement was to win the Impulse National Title in 2009.

### What do you like to do apart from sailing?

What I don't understand?????????

When not sailing I enjoy bike riding though usually end up at a yacht club.....!

Also enjoy good food and catching up with anyone who will have a drink with me!

**Dougal Watt, thank you for anchoring at On The Lake, page 8 for a moment.**

20 <sup>th</sup> August	<b>Race day</b>	Pam Pulham	
27 <sup>th</sup> August	<b>Race Day</b>	Lyn Hilton	Annette Marrinon

Welcome to all our new members. Just to remind you - all areas of the club depend on member/volunteers to function. The Galley is one such important area. We require new volunteers so we can keep up the supply of lunches on Saturdays for our members. The more volunteers we have, the less number of Saturdays you would be required. Times are from 10:30AM to 1:30PM. If you are sailing in the afternoon, you will have time to attend briefing and change in time for racing.

Two is the ideal number on Saturdays. If you can see a gap and can fill in, please call Pam on 9598 0820 to become part of the Galley roster.

Thankyou to Jenny and Joan and Alessandra for assisting with the Schools State Teams Racing event on 31<sup>st</sup> March and 1st April.
